This view of the Rondout bridge is one few persons ever see. It was taken by The Freeman's photographer, Milton H. Wagenfahr, to show how it looks with a small portion of the roadbed removed. The concrete section (center) was removed so that fresh material could be poured.

Legion Takes Stand  
That Communists  
Be Outlawed in US

Delegates Are Expected  
to Back Training;  
Coke Has Edge  
in Election

Los Angeles, Oct. 12 (AP)—After demanding that the Communist party be outlawed, the American Legion winds up its 32nd national convention today with a stand on universal military training and the election of officers.

Delegates are expected to back U.M.T. unanimously. They also will learn whether their Foreign Relations Committee will recommend that they urge the censor of Secretary of State Dean Acheson.

This issue was to come before the convention yesterday, but after a day-long session, the committee could not agree on a recommendation.

As for the election, word from departmental sources is that Eric Coker, Jr., 28, Dawson, Ga., airlines executive and farmer, has the edge over his two opponents in the race for national commander.

He is one of two World War 2 candidates. The other is Donald Wilson, 33, Clarksville, Va., attorney. The third contestant for the Legion's top office is Arthur J. Cornell, 32, Middletown, Conn., clothing firm executive. The returning commander is George Craig, Brazil, Ind.

Urges Stern Measures  
The Legion urged stern measures yesterday in dealing with Communists and subversives. The delegates were unanimous in recommending:

Outlaw of the Communist party, by constitutional amendment if necessary; Communists who are American citizens should be interned and tried as traitors, those not citizens should be treated as enemy spies; federal legislation allowing the death penalty for persons convicted of espionage, sabotage or sedition in times of peace as well as war; removal from government office anyone under whom Communist activities have been allowed to operate.

Other unanimously approved resolutions deplored the release from jail of Longshore Union Chief Harry Bridges, urged continuance of the House Un-American Activities Committee, commended F.E.L. President Green for his anti-Communist work and reaffirmed in the F.B.I. and its director, J. Edgar Hoover.

## Maritime Pay Raise

New York, Oct. 12 (AP)—A fourth maritime union—the C.I.O. National Marine Engineers Beneficial Association—has received a wage increase of 6.38 per cent. A spokesman for 39 employing companies announced that pay boost yesterday, affecting 12,000 marine engineers sailing out of Atlantic and Gulf coast ports. The newest pay raise would bring the range of monthly wages to \$396.56 for third class engineers and \$714.84 for chief engineers on class C freighters, the spokesman said. He said the marine engineers' wage agreement, if ratified, will become effective next Sunday.

## Gain Is Registered

Washington, Oct. 12 (AP)—The U. S. Bureau of Mines estimated the nation's coal stocks at the end of August at 58,964,000 tons, a 13.4 per cent gain for the month. That amount represents a 48-day supply, a better than normal store for Sept. 1, the bureau reported today.

Kingston Man  
Is Killed in  
Korean War

Mr. and Mrs. Jacob Ennist, 25 Abel street, were notified yesterday that their son, Pfc. Joseph William Ennist, 20, U. S. Marine Corps, was killed in action in "the Korean area" Sept. 24.

The marine was the first member of the armed forces from Ulster county to die in action in the Korean war.

The telegram, dated Oct. 11 and signed by Gen. C. B. Cates, commander of the marine corps, said the marine died "in the performance of his duty and service of his country," and informed the family that it "will be promptly furnished any additional information received."

A letter will follow, the message said, and it explained that no information was "available at present regarding disposition of remains" and that "temporary burial in locality where death occurred" was probable.

The marine had attended St. Mary's School and had been employed for two years before entering the service for the New York Central Railroad.

Besides his parents, a twin brother, Jacob, Jr., four sisters and nieces and nephews survive. He enlisted June 14, 1948 and went overseas in November of that year. He had been stationed in Japan until early in September when he was sent to Korea.

## Elections Board to Be Open

The Board of Elections office at 74 John street will be open until 5 p. m. Friday, October 13, and until noon on Saturday, October 14, the last two days of registration. For any business to be transacted or questions to be settled during the remaining hours of registration, when the office is closed, persons may contact Joseph Epstein, commissioner, whose telephone number is Kingston 2590, or William Kelly, clerk, at Kingston 1000 or 4093.

## Fire Sweeps Aquitania

Faslane, Scotland, Oct. 12 (AP)—The Aquitania, once proud queen of the seas, was swept by fire today as she lay in a shipyard here to be broken up for scrap. There was no indication of what caused the fire which was spotted on the famed old transatlantic liner around 3 a. m. today.

President Foresees His  
Meeting in Pacific

Chief Executive's Party  
Has Idea Island Will

St. Louis, Oct. 12 (AP)—President Truman held out hope today that he and General Douglas MacArthur may find a way to counter the explosive threat of communism in the Far East.

He contended that the free nations are "making progress" toward peace "in spite of conditions which are prevailing in the Far East."

Out of his week-end conference in the Pacific, the President predicted, may come "some contribution to the peace of the world."

Mr. Truman's talk last night, to a meeting of the Missouri Order of the Eastern Star, highlighted his stopover here en route to the spectacular rendezvous with MacArthur, 6,500 miles away.

Although some 12,000 persons heard the President's speech, to a closed meeting of the Masonic affiliate, newspaper men were barred.

Typewritten transcripts of his remarks were made available to the press later by Presidential Secretary Charles G. Ross.

That Wake Island will be the scene of the week-end conference—the first face-to-face meeting of the President and the United Nations' commander—was the opinion of most members of the President's party.

Declines to Say  
Press Secretary Ross stoutly declined to say.

Speaking after seeing his sister, Miss Mary June Truman, installed as Missouri worthy grand matron of the Order of the Eastern Star, Mr. Truman declared in his neighborhood, off-the-cuff fashion:

"Now I am on my way to have a conference with General MacArthur, and I hope that out of that conference will come some contribution to the peace of the world."

"For five long, hard years as President of the United States I have labored diligently to attain a peaceful world. I think in spite of conditions which are prevailing in the Far East, that we are making progress toward that point."

The President scheduled a 4 p. m. (E.S.T.) takeoff from Lambert-St. Louis Airport in the "Independence" on the second lap of his flight.

## Stop Is Planned

He is due at Fairchild-Suisan Airport in California at 7:15 p. m. (E.S.T.) and at Hickam Field, Honolulu, at 8 o'clock Friday morning, Hawaiian time. A four-hour stop is planned in California, a 16-hour layover at Hickam Field.

The meeting with the general after MacArthur's spectacular victory in Korea may figure heavily in the congressional election campaign.

Mr. Truman will make it the basis for foreign policy speeches at San Francisco Oct. 17 and to the United Nations General Assembly in New York Oct. 24. The White House has labeled both of these talks "non-political."

Dispatches out of Tokyo quote informed officials as saying General MacArthur is expected to warn the President that future Red attacks can be headed off only by a powerful U.N. force.

Mr. Truman will be assisted at the MacArthur conference by a top-flight staff including W. Averell Harriman, his foreign affairs expert, General Omar Bradley, chairman of the joint chiefs of staff, and Ambassador-at-Large Philip C. Jessup.

The action also came under fire from the Radio Corporation of America, developer of one competing color TV system ruled out by the F.C.C. The other was developed by Color Television, Inc.

David Sarnoff, board chairman of R.C.A., said in a statement issued in New York that the public interest will not be served by forced adoption of a "degraded" and incompatible system.

Washington, Oct. 12 (AP)—A threat of court action and further major delays hung over home color television today despite an official go-ahead for the Columbia Broadcasting System's method.

The Federal Communications Commission announced late yesterday that it had made final its previous tentative selection of the C.B.S. system as the national color television plan. C.B.S. immediately promised to "promote (it) to the hilt."

But Isidor Goldberg, president of the Pilot Radio Corp., said in New York his firm will seek an injunction to stay the F.C.C.'s action. Declaring that the commission should have delayed the decision for another nine months, Goldberg said "we very definitely plan injunctive proceedings."

Dewey Repeats His  
Charge Democrats  
Cheat on Power

Cheap Power Politics  
Is All State Got,  
He Says; Paid  
for Nation

Oswego, N. Y., Oct. 12 (AP)—Governor Dewey claims that the Democrats have forced New York to "pick up the check for the rest of America" on cheap power while, he says, they "obstruct" its development in the St. Lawrence river.

Winding up an 11-county campaign swing last night, Dewey again accused the Truman administration of blocking New York's plan to develop St. Lawrence power jointly with the Canadian province of Ontario.

Referring to federal power projects in the Tennessee valley and Pacific northwest, Dewey declared: "It is the same old game of give and take. We of New York give and the rest of the country takes. The New Deal and the Fair Deal have turned out to be a far deal and a raw deal for the people of New York."

Promised for 30 Years  
Dewey said the Democrats had promised for 30 years to give New Yorkers cheap hydro-electric power from the St. Lawrence.

But, he asserted, "they never delivered a thing—not a single, solitary kilowatt of power."

"Instead of power dams, we picked up the check for the rest of America. Instead of cheap power, we got cheap politics," he contended.

The governor said his Republican administration wanted to give New York "the blessings of the age of electricity that have been given to the people of the northwest and the south at our expense."

He contended that the T.V.A., Bonneville and Grand Coulee Dams were built "with federal tax money of which New York pays one-fifth."

It was Dewey's second major speech on the St. Lawrence power issue.

The governor said the Republican stand for development of St. Lawrence power was clear.

"Didn't Know Meaning"  
He said that Bronx Leader Edward J. Flynn and Tammany Hall, whom he calls the owners of the Democratic Party, were not interested in hydro-electric power.

"They don't even know what it means," he asserted, "because there's no graft in it."

The governor said an upstate newspaper (Ogdensburg Journal) had reported that his opponent, (Continued on Page 30, Col. 4)

Three Democratic candidates for the state Assembly are listed by the secretary of state as having American Labor party endorsement, but one of them was so listed through an error by election officials and the other two today vigorously repudiated the endorsements, according to The Associated Press in Albany.

The official list of candidates, released yesterday, carried the names of John D. Haist of Plattsburgh, Joseph J. Koenig of Kingston and Everett J. Loomis of Ithaca as having A.L.P. endorsement.

Raymond Van Orman, Democratic commissioner of election on the Tompkins county board, said there apparently had been a mistake in listings of party endorsements for Loomis. He said Loomis received Democratic and Liberal party endorsements, but not the American Labor party.

Rail Industry  
Predicts Hikes

Fare and Freight Boosts  
Would Result From  
More Wages

Washington, Oct. 12 (AP)—The railroad industry estimated today that pending union wage demands would raise costs \$1,000,000,000 a year and force fare and freight rate hikes of 15 per cent.

Stirred by the newest demands of unions representing 1,250,000 employees, the industry's statisticians contended that a boost of that size in all freight and passenger revenues would be needed to offset wage demands announced or already up for bargaining.

Here are the demands and the industry's estimate of how much it would cost to meet them:

(1) Fifteen unions with 1,000,000 members in the non-operating branches want 23 cents more an hour. They now average \$60.15 per week and are asking for a \$10 raise. They will serve notice of their demands on the railroads Oct. 25.

Would Cost \$400,000,000  
The unions estimated they pay proposal would cost \$400,000,000 a year but the railroads said it would come to more than \$525,000,000.

(2) The Brotherhood of Locomotive Firemen and Engineers announced it will ask for 35 cents an hour more for 85,000 of its members. The railroads figured that would cost them \$65,000,000 a year.

The firemen and engineers also have pending a request for 48 hours pay for 40 hours work for 35,000 members in yard service, a demand which the railroads, now on trial in Newark for (Continued on Page 29, Col. 4)

Regarding His  
Connections

New York, Oct. 12 (AP)—Sen. Estes Kefauver (D-Tenn.) threatened today to recommend contempt proceedings against an associate of underworld figure Frank Costello if he continues to refuse to answer questions before the Senate committee investigating crime.

Kefauver, whose committee is here investigating interstate gambling operations in New York and New Jersey, told reporters that Meyer Lansky yesterday refused to answer his questions.

Whether he had connections with the Klineburg Club in Las Vegas, Nev., the Beverly Club near New Orleans, and "if he had any interests in Saratoga."

Whether he met Charles (Lucky) Luciano on a trip to Europe about two years ago.

Seeks Indictment  
Kefauver also said his group is seeking an indictment for contempt against Harry Russell, "well known gambler and part of the Capone outfit who went to Miami Beach."

A grand jury may consider action against Russell this week in Washington, D. C., he said.

Later today Kefauver plans to go to Trenton, N. J., to talk with Anthony Guarini, who is imprisoned there on a gambling charge. Guarini has been listed as a principal figure in New Jersey gambling. On Friday and Saturday the committee will take testimony in Philadelphia.

Linked to Costello  
Lansky was linked to Costello in testimony yesterday.

At that time the Senate probe released a list of six companies which allegedly operated gambling resorts in New Jersey and Saratoga. Evidence indicated the companies grossed at least \$2,000,000, Kefauver said.

Five of the companies operated in Bergen county, N. J., and operations extended from 1945 to early 1950, he said.

Joe Adonis, an underworld figure, was prominent in all five groups, the senator said. The committee has sought him for questioning but has been unable to find him. His wife, served with a subpoena at her Cliffside, N. J., home, claimed she was too ill to appear.

Bombardment Is Slated  
to Keep Up; 'Big Mo'  
Shows Way

Tokyo, Oct. 12 (AP)—The battleship Missouri and allied warships set Chongjin port afire today with a thunderous bombardment and naval air strikes for north on Red Korea's east coast. The sea-air attacks were not many miles from the Communist China and Soviet Siberia borders.

There were indications the heavy shelling was continuing.

The burning iron and steel center of 190,000 people is 34 miles southwest of Red China's Manchuria frontier and 49 miles southwest of Soviet Siberia. It is 140 miles from Siberian Vladivostok, a major supply head for Red Korea's heavy weapons.

Down the east coast 220 miles is Wonsan, northernmost advance point of allied air attacks pressing toward the Red capital, Pyongyang, near the west coast.

Carrier planes, rocketed and strafed Chongjin in a fiery two-day prelude to the warship bombardment.

In addition to the Mighty Mo, the U. S. heavy cruiser Cleveland, and unidentified British, Canadian and Australian vessels took part. After an hour of shelling parts of the city were in flames.

The 45,000-ton Missouri blasted shore targets with one-ton missiles from her 16-inch guns.

The Mo is the flagship of the task group commander, Vice Adm. Arthur D. Struble.

No Conference on Mo  
There had been speculation that the Missouri might be the setting of President Truman's conference for the far Pacific with General MacArthur this weekend. After news of the shelling, the big warship was ruled out as a meeting place.

Admiral Struble said "we have a 400-pound allowance for today," the mention of the number of big shells presumably for the whole task group was a further indication the bombardment is continuing.

A P. photographer-correspondent Gene Herick reported the shelling from aboard the Mighty Mo.

He did not indicate whether a new allied landing might be in prospect.

The bombardment was like the one that softened the west coast for the far Pacific with General MacArthur this weekend. After news of the shelling, the big warship was ruled out as a meeting place.

The Inchon landings and the liberation of Seoul's Korean republic capital 22 miles inland, marked the collapse of the Korean Red army in the south and led to the rapid allied chase of the remnants inside the Communist north.

Could Cut Supplies  
A landing at Chongjin could snarl another United Nations spearhead rolling across the peninsula to seal off the Reds from Soviet supplies.

Far south and southwest of Chongjin, allied ground troops pushed steadily ahead on three fronts toward Pyongyang. Tank-led columns above parallel 38 were moving toward the Red capital from the south, southwest and east.

Those approaches to the west of defiant Premier Kim Il Sung's regime are fiercely defended by the Reds in some spots. In other sectors they were reported withdrawing.

The Reds were testing the bitter medicine they forced on U.N. forces early in the war.

### Lynch Says He Will Be Victor; Guises Are Hit

En Route With Lynch, Oct. 12 (AP) — Rep. Walter A. Lynch left for New York city today with a prediction that he will be the next governor of New York state.

"We will win and we will win big," the Democratic candidate told reporters smilingly shortly before boarding the Wolverine Express in Buffalo, where he concluded his third upstate campaign tour last night.

Lynch is scheduled to be on the reviewing stand today at New York city's Columbus Day parade before resuming his campaign against Republican Governor Dewey.

Since taking a train from New York city to Utica last Saturday, Lynch has travelled approximately 1,000 miles by automobile.

He addressed meetings in Syracuse, Rochester, Buffalo and numerous smaller cities and villages. Lynch's aides said more than 6,000 persons attended the meetings.

"I can sum up my opinion of this campaign trip very simply," Lynch said. "Dewey will not return to Albany and he will not again be a candidate for President of the United States."

"That information comes directly from thousands of people, Democratic and Republican, with whom I have spoken during this upstate trip."

"The voters of this state are intelligent, but Dewey just can't realize that. They know him and what he stands for—personal political ambition at any cost."

"I am extremely gratified over the enthusiastic reception given to the candidates of the Democratic Party on this campaign tour."

Lynch wound up his latest and most extensive campaign trip by addressing more than 1,000 persons last night in Buffalo.

Accused by the Republicans of being the candidate of Ed "Boss" Flynn, Lynch said the shoe was on the other foot.

He contended that Dewey was the "unsal" of Wall Street money lenders.

Pfeiffer Hits Role  
New York, Oct. 12 (AP) — G.O.P. State Chairman William L. Pfeiffer said today that Rep. Walter A. Lynch, Democratic-Liberal candidate for governor, has "appeared alternately in many roles" in his upstate tour.

Pfeiffer said the roles—"all depending on the locale and his theatrical mood of the moment"—included "the happy farmer," "the only pal that labor ever had," and "the great crusader for every right."

"Yesterday at Olean," Pfeiffer said in a statement, Lynch "became the financial expert and the authority on economy in government," and in this new pose he looks slightly sillier than he did as the Bronx farmer."

Pfeiffer said Lynch, "on his record, is identified with the giddy tax-and-spend programs of the Washington administration. To become, overnight, the great economist is a campaign phenomenon of awe-inspiring proportions."

The Democratic candidate for governor may get even sillier in this campaign—but he will have to reach to do it."

**Goldberg Is Termed Insane**  
New York, Oct. 12 (AP) — Morris Goldberg, 27-year-old amusement park concessionaire who shot his estranged wife and infant son to death after giving her a Valentine, was adjudged insane yesterday and ordered sent to an asylum.

The findings by Bellevue Hospital psychiatrists reversed a previous diagnosis that Goldberg was sane.

Chief Assistant District Attorney Edward F. Breslin said however that before Goldberg is committed to Matteawan State Hospital for the criminal insane the district attorney's office would have its own psychiatrists examine him.

Breslin added also that should Goldberg be found legally sane in the future, every effort would be made to press the murder charge.

Goldberg cut short a reconciliation attempt with his wife last Feb. 12 by giving her a Valentine, then pumping four shots into her body. He then turned the gun on his 11-month-old son.

A first panel of psychiatrists found him to have "personality difficulties, but not psychotic."

## \$21,600 in Four Memorial Gifts to Kingston Hospital

Four memorial subscriptions amounting to \$21,600, to be devoted to building and equipping specific parts of the enlarged Kingston Hospital, were announced today by Allan L. Hanstein, chairman of the memorial gifts committee for the \$850,000 building fund.

The creation of six additional patient's beds will be made possible by the gift of \$8,000 from Mr. and Mrs. George V. D. Hutton and Mr. Hutton's mother, Mrs. Augusta V. D. Hutton. In memory of Mr. Hutton's aunt, Eleanor Hutton Washburn, Mr. and Mrs. Hutton have subscribed the cost of a four-bed room. Mrs. Hutton, Sr., and her son have also selected two additional beds in another four-bed room to stand in memory of Katherine V. D. Kemble and of Emma V. D. Fuller.

A subscription of \$8,000 by the Fuller Shirt and Skyline Manufacturing companies will also be allocated, at the subscribers' request, to establishing a four-bed room on the second floor of the projected new east wing. In memory of Anne E. Fuller, this type of patient accommodation, according to hospital authorities, is largely replacing the larger ward in modern hospital construction, because it permits more economical operation and more efficient nursing care for patients.

Three members of the Treadwell family, the Misses Mary and Margaret DeWitt Treadwell and Cornelius S. Treadwell have jointly subscribed \$4,200 to enable the construction and equipping of a private room with lavatory on the third floor, as the gift of the family.

William C. Schuyler, president of the William C. Schuyler Lumber Company, has subscribed \$2,400, which will be devoted to establishing one bed in a semi-private room with a lavatory. Pointing out that memorial gift subscriptions are proving increasingly attractive to contributors to The Kingston Hospital Building Fund, Mr. Hanstein said:

"They not only assure the perpetuation of the names of individuals and families who have been closely linked with our community, but they also bring to each subscriber the satisfaction which comes from the knowledge that day in and day out for years to come he will be helping to assure life and health to hundreds of his friends and neighbors."

## New York Manager For Hiram Walker

New York, Oct. 12 — The appointment of Stanley F. Manister of Washington, D. C., as district manager in upstate New York for Hiram Walker Incorporated has been announced by Raymond Revit, eastern divisional manager for the company.

Widely experienced in package goods merchandising, Manister joined Hiram Walker in 1946 as a sales representative and two years later was promoted to supervisor of cocktail and cordial sales in middle western states. He was later made state manager for the complete Hiram Walker line in the District of Columbia.

A graduate of the University of Delaware, Manister is married and has one child. He will make his headquarters at the Hiram Walker district office in the State Tower Building, Syracuse. Commenting on the appointment of Manister to the important upstate New York area follows a company policy of promoting from within the company men who have been trained in Hiram Walker methods of merchandising. In this way we feel we can be of greater service to our distributors and the accounts they serve.

Manister will have full charge of merchandising Hiram Walker products in the area served by the following Hiram Walker distributors: Mullen & Gunn, Buffalo; Bonny Distributing Company, Syracuse; Perry & Sherman, Utica; and Colony Liquors, Distributors of Kingston and Albany.

### TRAVEL WOULD BROADEN NEHRU

No Asiatic leader matches the influence Prime Minister Nehru of India carries in the Far East. Yet Nehru unfortunately seems the hardest man in the world to convince of the evil of Russian communism. He persists in viewing the U. S. and other western nations almost as an equal menace, if not a greater one.

Since western colonial empires are but frail shadows of their former selves, this attitude is extreme puzzling. For the plain record of imperialistic Russian communism in Europe and Asia is grimmer and more brutal by far than the worst sins committed in the name of colonialism.

Because Nehru either can't or won't see this, it might be helpful if he took a little trip. He ought to run up to Seoul and talk to some of the Korean residents who have experienced Red rule for the past three months. Nehru, of course, would never take the West's word for what happened there. But the city's inhabitants are native Asiatics. They're the very people Nehru wants to save from foreign oppression. He ought to believe their story first-hand.

They'd tell him that when the North Korean Reds swept into Seoul they made their first order of business the killing of actual or suspected anti-Communists. Red troops and young Communist groups seized men and women on the streets. A mob would always gather when they grabbed a particular person. The crowd was asked: "Is this man an enemy of the people?" If the answer was yes, he was shot on the spot.

Altogether about 4,000 persons were killed through these "curbstone courts." Thousands of other suspected or actual anti-Reds were thrown into jail. They've never been seen or heard from since. Many residents told reporters that it seemed the Communists had come on a looting and killing mission and didn't care what the Korean people thought of communism.

The Red administration for the city, imported from the north, did nothing constructive. Its prime function appeared to be to legalize barbarism.

These North Korean Reds, who represent no one but themselves and their Russian masters (discreetly in the background), are the people Nehru feels should have been allowed to retire safely behind the artificial 38th parallel to plot new depredations in the future. These are the men he fancies are involved in a "dispute" with the South Koreans.

There is no dispute and there are no issues—except the overriding one whether the Korean people are to be left alone or are to be ground under the heel of Red dictatorship.

These North Korean Reds are the men whom Nehru finds it so difficult to distinguish from the C.I.'s and other United Nations fighting forces who went into Korea to halt Russian aggression.

Yes, indeed, in Nehru's case, travel certainly should prove broadening.

### THE BEST PEOPLE

Goaded by a question as to why racketeers are on the loose in his city, a Midwestern police official replied that killer-racketeers can be seen walking down the street with "the best people." His clear implication was that these people helped the racketeers to stay at large.

Who are "the best people?" Some may be classified as such for what they have accomplished, others because of their social or political position, still others merely for the possession of wealth. Whatever the basis of choice may be, we would suggest that those who associate with killers and racketeers, except for the purpose of getting rid of them, are not the best people.

### A BITTER LESSON

Secretary of the Army Frank Pace tells us now that a mere 700 U. S. soldiers fought to hold the line in the first bitter delaying action against the North Koreans.

We all knew our forces were small and outnumbered, but few of us probably imagined the defenders were that scant in number.

### THE COURTS

Whenever I face elections, I become puzzled about how to vote, particularly for judges. Our freedoms depend upon our courts, upon the character of our judges. Those whom I am asked to vote for are, on the whole, mediocre persons, not particularly fit for judicial office. I should not like to have my future depend upon their experience and soundness of judgment. Of the half dozen candidates, I shall, unless I have some reason better than I know today, vote for only one, Charles D. Brulter.

It is a sad situation for the citizen. The bosses pick his judges. Why should I vote for a judge selected by such a person as Boss Ed Flynn of the Bronx or someone similar to him? Why should any citizen be placed in that position? It is unfortunate enough that we are dependent upon these politicians for administrative and legislative candidates; it is a crime against our political structure that such men exercise so much power over our courts.

Some time ago, Mr. Justice Robert H. Jackson of the United States Supreme Court said:

"A disorderly, obstructive, contemptuous or defiant demonstration against the courts can only be carried on by lawyers. The problem would be less difficult if it were due only to a purpose to discredit courts and judicial proceedings."

But the more subtle danger is from the growing attitude that judicial control of the proceedings is a sort of tyranny, that a courtroom ought to be a cockpit without rules, the trial a free-for-all, into which the participants are free to throw anything they please.

An obvious demonstration of lawyers' contempt for the courts was given wide exhibition in the trial of the Communists in Judge Medina's court, and this is undoubtedly the demonstration to which Mr. Justice Jackson refers. But what they did was unusual only in a degree, many lawyers assume an attitude of disrespect in the courts for which there can be no excuse whatsoever. A client can be defended without disrespect.

The point is that this condition is bad enough when shyster lawyers use the courts to get publicity for themselves or to give the jury a vaudeville show, perhaps to impress clients and their families. It becomes increasingly dangerous to the preservation of American justice when the lawyers have real and abiding respect for the judge, when every informed person in the courtroom knows how the judge happened to be nominated, even how much he paid into a campaign fund or directly to the boss for the nomination. No one can prove that these things happen, even though they are frankly discussed in political circles.

I have sat with judges discussing judges and with lawyers discussing judges over these many years. It is one thing to question a doubtful fact; it is another when they speak in frank contempt of a judge's character and his associations.

Some have said to me that after a lawyer has made money, he often seeks honor and that some of these men, who as lawyers pursued dubious courses, make excellent judges once they have taken the vow, as it were, of this society. I have known three or four instances which might prove that a political judge could develop into a judicial philosopher.

The fact remains, however, that when a few county leaders meet in a restaurant to pick judicial candidates, they also make deals. They also arrange about receipts and references and all sorts of benefits to favored lawyers. And when men are nominated who cannot be regarded as fit, where very many men are not surprised the citizens, they obviously the bosses have not selected in the public interest.

It used to be that in some cities like New York, the parties united in the renomination of sitting judges. This practice has now been abandoned in favor of strict partisanship.

But then if the people do nothing about it, why should not the bosses do what they can get away with?

### That Body of Yours

By James W. Barton, M.D.

#### MYALGIA, PAIN IN NECK

Several years ago I wrote about an epidemic in the English countryside of severe pains in the chest, which at first was thought to be pleurisy, but was later found to be pleurodynia, or false pleurisy (another name for old-fashioned muscular rheumatism). It resembles pleurisy because the pain is in lower chest and is aggravated by any movement of the chest or abdominal muscles such as turning, bending, coughing, sneezing. But in pleurodynia the pain is just in those muscles outside the ribs, not inside the rib muscles alone. It is called myalgia and where it affects the nerves it is called neuralgia. When a number of cases of myalgia occurred in Baltimore, Drs. A. M. Harvey, P. A. Tumulty, F. B. Bang and W. B. Lefkowitz observed a small epidemic at Johns Hopkins Hospital, in which pleurodynia (pain in the chest muscles) and pain in back of neck muscles (cervical myalgia) occurred sometimes in the same person. Their report appeared in Southern Medical Journal, "Epidemic pleurodynia is characterized by paroxysmal pain in the muscle or group of muscles. Pain begins suddenly and may be sharp and knife-like or dull and aching. Coughing, sneezing, deep breathing aggravate it. Temperature may rise suddenly to 102 or 103 degrees and fall rapidly to normal in 12 to 48 hours."

It has been thought by some physicians that the common condition of stiff neck is really a myalgia due to some type of virus. It also begins suddenly, usually on one side of neck and pain (severe pain) goes away in 12 to 48 hours. However, the pain in mild form may persist for many weeks and not applications and also acetylsalicylic acid (aspirin) are needed to ease the pain and relax the muscles. While pleurodynia and myalgia are not serious or dangerous diseases, they cause a lot of annoyance and inconvenience. As the disease proper does not last long (12 to 48 hours) it is the stiffness and pain lasting so long afterwards which needs treatment.

It is here that physiotherapy—electricity, heat in various forms, and properly applied massage—can give comfort and relief to the patient.

#### Chronic Rheumatism and Arthritis

Sufferers with chronic rheumatism and arthritis will find many helpful suggestions as to diet, heat, massage, and other aids in Dr. Barton's booklet entitled "Chronic Rheumatism and Arthritis." To obtain it, send 10 cents and a 3-cent stamp to cover cost of handling and mailing, to The Bell Syndicate, Inc., in care of The Kingston Daily Freeman, Post Office Box 99, Station G, New York 19, N. Y., and ask for your copy.

Pace said that only a relative handful of the original 700 are alive today to recount their terrible ordeal.

The full story these men can tell should be unfolded for us here at home, so we may understand once and for all the awful price in blood and pain that unpreparedness exacts.

"ALL FOR ONE—ONE FOR ALL"

## AS PEGLER SEES IT

By WESTBROOK PEGLER

New York, Oct. 11—A worker in Ohio, a pottery man who is also a union member, has raised the proposition in the Taft campaign that union publications, paid for by the members, are not properly the political organs of the union bosses.

In practical fact, the entire group of union papers are exactly that, and a more dispiriting fact is that they are being spent for booklets, pamphlets and radio programs, attacking Taft. There ought to be some place where we can get both sides of the story.

To be sure, this is a campaign document of itself but it points out, though not for the first time by any means, a corruption of the press and of the ballot by the most arrogant fakers since prohibition.

Beginning with the fact that membership is not voluntary but a law in the citizen's right to own a living, we come next to the fact that he is further compelled to pay his portion of the cost of turning out a union paper to oppose his own principles at the polls.

In the Taft campaign, Willis O. Hall, of East Liverpool, O., chairman of the Labor League for Taft, recently addressed to Jack Kroll, of the Political Action Committee of the C.I.O., a demand that he open "the columns of our labor papers to those who support Senator Taft."

"Much space has been devoted in our labor press to the diligence of our leaders in protecting our freedom," Mr. Hall said. "Some freedom of discussion in our labor press would be especially desirable in this campaign. Our union papers do not make allowance for the membership to think for themselves. They refuse to print comments of the rank and file that do not agree with the political goals of the top officials. Not only is expression refused to the member—

grow suspicious that some sticky issue in the editorial works was making him and his in the eyes of the rank and file. This paper went straight to honey-handed underpaid freighters on the long haul, who risk their lives in winter and sleep the sleep of exhaustion in the box in all seasons, and to their wives and children."

For the first time they were visually confronted with the array of bull-bull when they were supporting in splendor and luxury with unlimited expenses and new cars at his interest desire for the size of the herd, plus the grand winter palace and the colonial winter on Miami Beach.

Tobin's own hand-wrought editorials are masterpieces of crude comedy. He takes himself seriously and pounds out platitudes of monumental banality. He has to do it himself and thus to reveal himself in his editorial givings because that wretched experience with an intellectual salience caught him never more to trust his grandeur in the hands of another.

Clown, leopards, thief or Communist, the union president automatically becomes editor of the union publication. His own absurdities, blunders and treasuries become the official editorial policy of the entire union. The rank and file are thus committed to the boss's policies and are forced to put up money to oppose their own candidates, not only in their publications but, as Hall says, in handbills, comic books and broadsides.

Cecil B. DeMille fought this principle in a classical case and lost by court decisions which corrupted law and justice. As a broadcaster he had been asserting one buck to advocate a cause which he opposed. He refused and his membership was impaired until he should give in and consent to cut his own throat. That is the present plight of all citizens who are subjected to union jurisdiction, compulsion and persecution. It is a very important reason why the many who unionize is a criminal force in the United States and should be struck down by every honest legislator, judge, and worker of the rank and file.

### Finds Death Is Trouble

Berlin (AP)—This happened when a man died of a heart attack in a West Berlin bowling alley one night. The proprietor called the fire department. They said they could not pick the man up because he died of a natural cause. The proprietor called the police. They didn't feel authorized to help, either. "Call a transport firm or an undertaker," they advised. It was midnight. A dozen such calls were in vain. Finally the embittered proprietor loaded the corpse on his handcart and took it home. A policeman accompanied him through the dark streets.

Acheson's Importance Fades as Truman Plans Trip Without Him to Meet MacArthur

By DAVID LAWRENCE

Washington, Oct. 12 (AP)—The general observation is that the President has managed to deal with an international importance that nobody can quite prove and with a domestic importance in the political campaign which everybody is quite willing to concede.

For, the steps are, if the incident really had the significance in world affairs that the announcement seems to imply, then the secretary of state, Dean Acheson, would or should have gone to the meeting. It just is not accepted that Mr. Truman is so conversant with the details of the important questions alleged to be under consideration that he can sit in for his own secretary of state. Conversely, if the man who is now pushing the President to advise him on matters of foreign policy, Messrs. Averell Harriman, Assistant Secretary Dean Rusk and Ambassador Philip C. Jessup are the people who really make foreign policy nowadays, it tends to rank Secretary Acheson as of much less consequence than his opponents believe him to be.

While the last 24 hours have given an opportunity for wide acceptance, certain bits of news have been released which throw more light on the whole subject.

First, it was disclosed at the White House that the object of the trip was born on the Presidential yacht on the recent week's cruise and hence was not the carefully conceived plan of anybody in the Department of State or the Department of Defense, where a might have been suspected that policies of such major importance would be argued. The last summary of Messrs. Harriman, Rusk and Jessup to pick their lives in winter and sleep the sleep of exhaustion in the box in all seasons, and to their wives and children.

For the first time they were visually confronted with the array of bull-bull when they were supporting in splendor and luxury with unlimited expenses and new cars at his interest desire for the size of the herd, plus the grand winter palace and the colonial winter on Miami Beach.

## Social Security - Law Provisions

Following is another in the  
series of articles on Your New  
Social Security, written by  
George J. Johnson, manager of  
the Kingston Social Security  
Office.

There are at present negotia-  
tions under way between the Fed-  
eral Security Agency and the Gov-  
ernment of the State of New York  
in which coverage for employees of  
state and local government is  
being discussed.

The new social security legisla-  
tion make coverage available to  
14 million employees of states and  
then political subdivisions and in-  
strumentalities by means of vol-  
untary agreements between the  
state and the Federal Security  
Administration. Included from  
coverage are about 24 million em-  
ployees of state and local govern-  
ments in positions covered by re-  
tirement systems. Compulsory  
coverage is provided for certain  
employees of publicly acquired  
transportation systems.

Under the 1950 amendments to  
the Social Security Act, Old Age  
and Survivors Insurance is not  
automatically extended to em-  
ployees of nonprofit religious, chari-  
table and educational groups or  
societies. Beginning January 1,  
1951, employees (except clergymen  
and members of religious orders)  
of such organizations may become  
eligible for retirement insurance  
protection under conditions de-  
scribed below.

Trainings of employees of non-  
profit organizations may count to-  
ward old-age and survivors insur-  
ance benefits if (1) the employee

organization files a certificate  
with the Bureau of Internal  
Revenue in which it elects to as-  
sume its share of the Social Se-  
curity tax and if (2) at least two-  
thirds of the employees of that or-  
ganization express by signing the  
certificate their wish to have  
social security coverage. Would  
all employees of the organization  
then have social security cover-  
age? Not necessarily. (1) Only  
those who signed the statement of  
certification plus (2) all new em-  
ployees hired by the organization  
after the effective date of the cer-  
tificate.

A dependent husband as well  
as a dependent wife is eligible to  
old-age and survivors insurance  
payments under the amended So-  
cial Security Law. Beginning Sep-  
tember 1950, the dependent hus-  
band of a woman who through  
her own work in a social security  
job became entitled to old-age  
after 1939 is also entitled to in-  
surance payments. This gives to  
the dependent husband the same  
old-age and survivors benefits that  
the dependent wife has always  
had under social security. To  
qualify as a dependent husband,  
he must have the status of hus-  
band of the insured woman work-  
ing under state law and be the  
father of her son or daughter, or  
have been married to her for not  
less than three years immediately  
preceding the day on which the  
application was filed.

The dependent husband must be  
65 or over, be living with the  
woman worker at the time he files  
the application for insurance pay-  
ments and have been receiving at  
least one-half of his support from  
the woman worker at the time he  
became entitled to old-age insur-  
ance benefits. The dependent hus-  
band's insurance payments will be  
one-half the amount payable to  
the insured woman worker on  
whom he is dependent.

The insurance benefits to the  
dependent husband will stop if the  
marriage is ended absolutely and  
finally or if he becomes entitled  
to benefits equal to his benefit  
as a dependent or if either the  
woman worker or the dependent  
dies.

We invite any husband or wife  
who feel the husband meets the  
requirements is described in this  
article to call at our office in or-  
der to discuss possible benefit un-  
der the amended law.

Clerks' Day at Grand Union on October 20

A Grand Union store employee will direct the organization's entire operation as president of the Grand Union Company on October 20. Other clerks will act as vice-presidents and secretary-treasurer. Each large super market and service store will be managed by a clerk on that day.

The employees to occupy these positions are being selected by employees in the stores who are picking those they think "most likely to succeed." According to the president of the company, Lansing P. Shield, this "Clerks' Day at Grand Union" will actually be something of a preview of what the company management may be in years to come.

"This program has been developed in keeping with the company policy of building up our people as well as providing improved equipment in our business," said Mr. Shield. "We believe our business is more dependent on better men than it is on better machines. This plan is a way to give our people in the stores a clearer picture and better understanding of the problems of Grand Union's management. In turn, today's executives will get better acquainted with more of the people in the stores."

### Honest Cabbie Is Rewarded by \$200

New York, Oct. 12 (AP) — An honest taxi driver? They're all honest. But a modest honest taxi driver? Well—

When Miss Camilla Steinbuegge stepped from a cab into the Hotel Roosevelt last night she suddenly realized she'd left her bag in the taxi. It contained \$2,000 in cash, a passport and a first class ticket on the liner Ile De France among other things.

Police were notified. Miss Steinbuegge paced the floor.

Couple of hours later a taxi driver hurried in. Just found this bag in my cab," he said. "Think it belongs to a lady I dropped here."

Everybody wanted to know his name. The taxi driver was reluctant. Miss Steinbuegge pressed \$200 on him. All right. He admitted his name was Harry Goldwasser.

### Barrow Reported At Trent Canal

Midland Ont. Oct. 12 (AP) — Two boatmen—one bound for Alaska the other for the Gulf of Mexico—compared notes here yesterday after chance meeting at the Trent Canal.

Dennis D. Barrow of Woodstock, N. Y., is heading north and west in a 14-foot outboard motorboat. Fred Schrader of Essington, Pa., in a 13-foot converted lifeboat powered by a 1923 Model T Ford engine is on the northern leg of a trip which will take him to Chicago, the Mississippi river, the Gulf and the Atlantic.

They came here from north of Waukegan to get charts of the inside passage of Lake Huron, Georgian Bay. They plan to travel together to some point near the west end of Manitoulin Island in the north end of Lake Huron.

From there Schrader and his companion Everett Parish will swing south into Lake Michigan, headed for the Chicago-Detroit Canal.

Barrow, whose one-man crew is his brother Carroll of Chaddock, Va., said:

"We might get to Alaska next year but I wouldn't promise. It might be the year after that."

Gregory's New York Tribune was the first paper in America to recognize Charles Dickens as a great writer.

**Useful Tips on How to Lift Things**

Four points to be observed to avoid strain in lifting objects are illustrated in a striking red and black poster sent out by the Industrial Accident Prevention Association to member firms. Workmen lifting objects are advised:

1. Bend your knees.
2. Keep your back straight.
3. Push upwards with your legs.
4. Hold it close.

And are reminded that "It is easier—it is safer—to lift the right way."

## Book Review

To further increase interest in the Kingston Library, the following review by Mrs. G. Chander is published.

## A HOUSE IN THE SUN

By Dane Chandor

This is a little literary gem about the author's house in Mexico, which he has converted into an inn. Situated in the little village of Ajijic on the shore of a lovely green lake at the base of high mountains, the natives (Indians) and as blarney a collection of guests as you can imagine seem to live enchanted lives.

It is a small house with a large staff. There are Candelaria, the cook; Cajetana, the major-domo; Aurora, the laundress; Nieves, the housemaid; Chabela, the maid; and a great number of other helms who did odd jobs and tended the garden and tended the ants. That left nothing for the host to do but attend to bookkeeping, take care of correspondence and accounts, purchase supplies and settle differences as they arose and a lot of other things. Seems like too much for one ordinary mortal; but far from feeling burdened by his many tasks, the author got genuine enjoyment out of the situation and tells about it with wit and charm.

His first guests are most conservative—a retired flat and professor (who must have napoca every day) and his aristocratic and surprisingly competent wife. Next to arrive was the oddest guest of all, Mr. Humpel, a mining engineer, 85 years old, who had lived 83 of them in Mexico. He selected one of the two small bungalows at the far end of the garden and asked that the charcoal stove and oven be placed in the veranda. There he prepared his own peculiar meals, even baking his own bread, since he had intestinal troubles which he described in detail. He was very little trouble, joined the others at cocktails to which all guests were invited the first night, then played poker with the elegant wife of the professor far into the night, much to the professor's discomfiture. When circumstances required it Mr. Humpel always wrote notes. Here is the first one: "Sir: Would you be so kind to keep in your ice, but in dry angle, my very best. I am on (12) grams. Binds of fruit from the kitchen would please my parrot if not else disposed. Please counsel all that my man parrot, who has the yellow headtop, is angry and attackive. I thank you."

Heinrich Joachim Humpel, Ingeniero.

The next guests were a Mexican doctor, his wife, their five children, his sister's mother and a very old lady. They stayed a month—packed into a small bungalow because they preferred to be crowded—ate their meals at all hours and left suddenly in a flurry of packing, unpacking, re-packing and say "Good-byes." Candelaria estimated that the oldest lady alone had consumed 17 1/4 pesos of sardines and concluded they hadn't been a very good bargain for the inn.

After that came Elliot and Verma, charming old friends. Then a most imposing general and then Lady Connemara, who dabbled in clay-modelling. Baking her figures on Mr. Humpel's oven was too much and she wrote him a letter: "Hon. Madam Countess! For neighborliness sake I was conform that you should bake your figurines in my bread-oven, but to find earth everywhere I did not wait. There have gone to the dogs two of my loafs entire, and four (4) rose-rolls all maddled, for which I am indebted \$2.60 of national money, which please to send, for today I was climaxed to find your virgins reposing on my pumper-nickel." Of course Mr. Chandor paid the bill.

Then came Fordyce, young, pale, tall and completely unsocial. He stayed in his room most of the time except for one occasion when he went to Chapala for a grand, prolonged binge. Once the irrepressible Lady Connemara presumed to ask him what he was doing in Ajijic. His reply was, "Minding my own business."

More guests came—Miss Dowdell, an Englishwoman about 70 years old, who drank wine and yanked every male in sight. Finally Fordyce came out of his solitary room and announced "Look here, either that doozie goes, or I go." Miss Dowdell went. Then came the self-styled Princess de Lamballe and her young, handsome chauffeur, who shared her room. They didn't stay long. The India started at them too much. The most demanding and exciting guest was a Russian, Mme. Palavandrova. She arrived with much expensive luggage, a lynx rug, crocodile bag, milk coat, etc. She came to dinner trailing yards of chateaux chiffon and regaled the others with tales of her six assorted husbands and why she divorced each. When a hat got into her room, frightening the maids, she grasped it easily in her small hands and tossed it out of the window.

She stayed for one hectic week and after that things happened rapidly. Candelaria left after brief notice. Attempts to fill her place met with discouraging results. At this point Mr. Humpel announced by way of one of his quaint notes, his engagement to the little widow who, soon after her husband's death, came with her baby to be serving maid at the inn. Confusion and discord arose all around until by lucky chance a really good cook was secured but, alas, on Saturday nights she went to town and

not light. Each time she returned later and later and finally did not come back at all.

Then things were really bad in the kitchen, but when word got around of the cook's defection, help came from many sources and of course a note came from Mr. Humpel—"Sir: One says that the cook, Concora, is again over not to wonder for she is an acquainted source. I am rousing my oven, and for the midday eating will be a Humpel pudding-pie."

I am to command in my cook department. I thank you." Taking heart from all this Mr. Chandor searched out Concora in jail, paid her fine and had her released. But with great dignity she refused to return with him. Said she was unworthy. So he came back alone, completely discouraged and announced that he would have to leave Mexico for

good. What happened to deter him is dramatically unfolded and discloses the deep spell which Mexico and Mexicans cast upon visitors who stay here long enough.

The book ends with one last note from Mr. Humpel which sums up his—and the author's—feeling about Mexico.

## Will Make Pilgrimage

New York, Oct. 12 (AP)—More than 3,000 Boy Scouts and their senior counter-parts, the Explorers, will make their 31st annual pilgrimage to the grave of President Theodore Roosevelt at Oyster Bay, N. Y., on Saturday. The scouts are from troops in New York, New Jersey and Connecticut. Tomorrow, as part of the pilgrimage, they will encamp at Roosevelt Memorial Park on the south shore of Long Island.

## Hanley Says H.S.T. Visit Is Political

Medina, N. Y., Oct. 12 (AP)—Joe R. Hanley, campaigning here today for election to the U. S. Senate, says President Truman "can learn plenty" from General MacArthur.

But the Republican lieutenant governor also views the President's trip to a sacred Pacific rendezvous with MacArthur this week-end as "another one of his many political journeys." Hanley expressed those views in Canandaigua yesterday, criticized American foreign policy with respect to Asia as "vacillating, blundering and uncertain." In Rochester for "an overnight rest," Hanley pledged last night

to the Monroe county Columbia Republican League that, if elected, he would support admission of Italy into the United Nations. Hanley charged that Italy was being kept out by Soviet Russia.

## Airport Conference Is Slated in Syracuse

Albany, N. Y., Oct. 12—More than 150 aviation and airport operating officials from all parts of the state will assemble in Syracuse Tuesday and Wednesday, Oct. 17 and 18, for the third annual airport management conference sponsored by the New York State Department of Commerce. Problems facing the industry in the state will be presented by leaders in the state and national aviation industry, and discussed in

open forums. Sessions will be in the Hotel Onondaga.

A special feature will be a demonstration Tuesday at the Clarence E. Hancock municipal airport of fighting aircraft fires with small equipment normally available at or near the average airport. The demonstration will be under the direction of E. Richter Townsend, chief of the Bureau of Fire, New York State Division of Safety.

## War Safety Lessons

Albany, N. Y., Oct. 12 (AP)—Albany county schools add lessons in what to do in case of an atomic attack to their reading, writing and arithmetic next week. Mayor Erastus Corning, of Albany, county director of civilian defense, announced yesterday that the schools would begin Monday a series of drills on defense against

serial attack. When the alarm sounds, pupils in each classroom will crawl under their desks, turning their backs to the windows. Designated pupils will draw all window shades. After the "explosion," the pupils will move

quickly to inner corridors of the school building and lie down on the floor against the walls. Each of the 60 public, parochial and private schools in the county is expected to conduct three such drills next week.

## Management Club Of Kingston Has Over 100 Members

The Industrial Management Club of Kingston is rapidly growing into one of the city's larger civic groups, with a membership of well over 100 to date.

The club, officially organized last March, directly benefits supervisors and executives of member organizations, and thus indirectly proves a benefit to all employees of these concerns.

The history of the club, which is affiliated with the Y.M.C.A., goes back to December, 1949, when a number of men from Kingston's leading industrial organizations, being of the same opinion that both executives and members of management should in some way be brought together to discuss the variety of problems which daily confront them, met at the Y.M.C.A. As a result of this meeting the Industrial Management Club of Kingston was formed. Last month the club was officially accepted as a member of the National Council of Industrial Management Clubs.

The club has three specific purposes: (1) to keep members in touch with the latest thought on industrial management and allied subjects; (2) to provide opportunity for exchange of ideas and discussion of industrial problems; and (3) to build good will in industry by recognizing the existence of the human element, and promote a program of mutual service.

Among the varied anticipated activities of the club, will be to help supervisors interpret simply and correctly to workers, some fundamentals of practical business economics, and then to analyze their job for better results, help secure a better understanding of human relationships; teach how to win confidence of people under their supervision; create a more wholesome relationship between foremen and company executives; offer valuable contacts with industrial leaders, and to train men in supervisory positions to be capable of accepting greater responsibility.

Sponsored wholeheartedly by a majority of Kingston's largest industrial organizations, the club has quickly blossomed from its original handful of interested supervisors to its present size.

Credit for the successful growth of the club is given to the efforts of the officers, who are: President, Ralph M. Cooper, first vice-president, John H. Hildebrand, second vice-president, Herbert M. Siller, recording secretary, Victor E. Fletcher, treasurer, H. Irvin Etchells, executive secretary, Burton S. Tandy, and directors L. George Oberly and Mario Eguoro. Also, credit is given the chairman and members of various committees, who have worked in close cooperation with the executive committee.

Today, nearly 50 local industrial organizations are represented in the club, and are anxious for their men to develop leadership abilities and to promote better human relations within their industries.

In the past few months, the executive committee has obtained the services of several outstanding and qualified speakers. In the near future, they shall likewise present prominent men to speak before the club.

Dr. William F. Rosenblum, rabbi, Temple Israel, New York city, will be guest speaker at the next meeting to be held at the Y.M.C.A. October 13.

An invitation is extended to all men of Kingston and vicinity industrial organizations who are employed in a supervisory or executive position, to join the club and enjoy full advantage of its many services.

For complete information, contact any officer of the club or call the Kingston Y.M.C.A.

## Highland Girl Fell From Auto

A two-year-old girl who fell from her father's automobile at Highland Tuesday afternoon is at St. Francis Hospital in Poughkeepsie, where she is recovering from head injuries. Hospital authorities said today her condition is "good."

Troopers at Highland said the girl's father, Nicholas Potenza, 32, of Highland, reported the accident to them Wednesday. The girl, Carolyn, fell from the automobile

as it was passing the Mountain View Bus Line garage about 1:45 p. m. Tuesday, troopers said Potenza told them.

## Stalin Sends His Greetings to Korea

Moscow, Oct. 12 (AP)—Premier Joseph Stalin has wished the North Koreans success in their struggle for "the erection of a united, independent, democratic Korea."

The text of the telegram was featured on Moscow front pages beneath large headlines this morning, after it was previously broadcast by the Moscow radio.

The message was Stalin's reply in an exchange of greetings between the Soviet and North Korean governments on the second anniversary of establishment of diplomatic relations between them.

North Korean Premier Kim Il Sung wired the Russian leader expressing his country's "warmest gratitude" for the "friendly support given by the Soviet Union to our people in their struggle for the independence of our country."

A high official in the zone interior ministry, which controls 135,000 People's policemen, demanded in a zone-wide broadcast that ballots be cast unmarked.

Those who mark their ballots in the secrecy of the curtained booth will be suspected immediately of opposing the peace program of the (National) Front of Democratic Germany, State Secretary Hans Warnke confirmed.

## West Berliners Observe Tribute

Berlin, Oct. 12 (AP)—More than 2,000,000 West Berliners paid silent tribute today to Germans resisting "Communist terror" in the city's Soviet sector.

At noon sirens signaled a two-minute silence throughout West Berlin.

The tribute followed Mayor Ernst Reuter's announcement that 375,712 adult residents of Russian-occupied East Berlin had voted against communism and for democratic unification of the city by mailing old ration cards as an indication of their sentiments in the western city hall.

The jangle of street traffic died away. Workers paused in the factories. Western radio stations went silent.

Mayor Reuter said the silence "expressed our protest against terror in the east, our unity with brethren there and the will of all citizens for free elections in all Berlin."

A jubilant West Assembly heard the mayor disclose the final votes voluntarily mailed to the city hall by East Berliners, despite stern Russian warnings.

Ballots Are Ration Cards

The ballots were old September ration cards from which East Berliners removed their names to avoid possible identification by Communist spies.

More than half the estimated 700,000 enfranchised citizens of the Soviet sector participated in the secret poll conducted for seven days by anti-Communist western political parties.

Even after Communist authorities announced they would give an unexpected clothing ration to holders of September cards, more than 100,000 poured into city hall.

East Germany's Communist government, meanwhile, hinted plainly at police reprisals against

all citizens who fail to vote openly for Red "National Front" at Sunday's election.

**Demand Is Made**

A high official in the zone interior ministry, which controls 135,000 People's policemen, demanded in a zone-wide broadcast that ballots be cast unmarked.

Those who mark their ballots in the secrecy of the curtained booth will be suspected immediately of opposing the peace program of the (National) Front of Democratic Germany, State Secretary Hans Warnke confirmed.

Warnke warned also against absenteeism from the polls.

"Naturally we know automatically who are the voters who do not participate in the election," he said.

The ballots reportedly carry only a statement affirming support of a single list of candidates offered by the "National Front."

Seventy per cent of the candidates are Communists, the remaining 30 per cent being divided between East German remnants of the Christian Democratic Union and the Liberal Democratic party.

The other group comprises those who have had 90 days or more, but less than 21 months, of active duty subsequent to completion of or release from an armed and veterinarians are required to service training program or a day.

## 906 Enrolled at New Paltz College

A record number of 906 entering students raises the total enrollment at New Paltz State Teachers College, State University of New York, to 906 for the fall semester 1950-51 according to figures released by President William J. Haggerty Saturday morning. The number represents an increase of 18 per cent over last year's figure.

"This growth in enrollment," Dr. Haggerty points out, "is clear evidence of two things. One is the demand for higher educational opportunities on the part of youth in this region of the state; the second is a response to the opportunities available in the teaching profession."

Similar factors contributed to the significant increase in the number of students who attended the 1950 Summer Session at New Paltz. Registration in the summer program was up 40 per cent over the summer of 1949.

Enrollment figures for the past seven years reveal a steady growth of the State Teachers College. Total registration has nearly tripled during that time, reaching a high of 906 this fall.

Reflecting the increased number of job opportunities at the nursery kindergarten and primary teaching levels, is the number of Sophomores who have elected to specialize in the Early Childhood Education program at New Paltz. Thirty-two per cent of the class are beginning their work in that field this year as compared with 22 per cent of the Junior Class and 21 per cent of the Senior Class.

Commenting on the enrollment, President Haggerty states, "With 23 new staff members representing seven new fields of instruction and with a new dormitory to house 250 students almost completed, the College is in a better position than ever before to offer a well-rounded college education to its students. This number of students on the campus, however, has created a real urgency for the new library, gymnasium, classroom building, and heating plant which are included in the building program of the College. It is expected that construction on at least the library unit will begin by next spring or summer."

## Square Dances at State Teachers College

The third season of monthly square dances at New Paltz State Teachers College, New Paltz, N. Y., will get off to a start Thursday, October 19, at 8 o'clock in the college gymnasium.

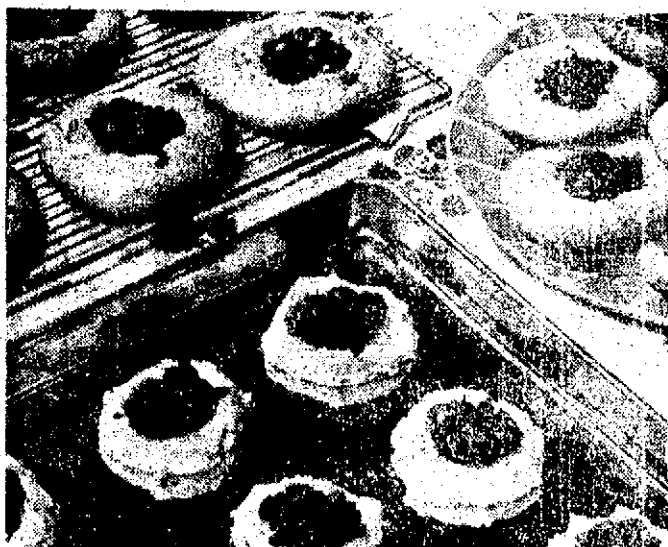

Both round and square dancing will continue until midnight to the music of the Kentucky Moonshiners square dance orchestra from Middletown. Refreshments will be served. All dancers, young and old, beginners and experts, are invited to attend. There is a general admission charge.

Dances in this series will continue through next May and are scheduled for the third Thursday of each month.

## Register Tomorrow

Friday and Saturday are the final days of registration in the City of Kingston. Tomorrow, the polls will be open from 10 a. m. to 10 p. m. Saturday, the polls will be open from 7 a. m. to 10 p. m.

## Cranberry-Mince Meat Jumbles

Cranberry-Mince Meat Jumbles—crisp, fruit-filled butter cookies—will satisfy any hungry school boy. For this delightful different filling, combine jellied cranberry sauce, prepared mince meat, and chopped nuts.

## Stock Cookie Jar With Jumbles

The four o'clock cookie jar raid is on again.

As regular as clock-work, a famished Junior rushes in from school with, "Mom, what have you got to eat?"

The answer is Cranberry-Mince Meat Jumbles—crisp, fruit-filled butter cookies that would delight any hungry school boy. It's one of those easy-does-it cookies. The batter can be whipped up in short of a jiffy; and the filling is even simpler to put together. Just combine 1/2 cup whole jellied cranberry sauce and 1/4 cup prepared mince meat—the kind you buy in tins at your local grocery store; then add 1/4 cup chopped nuts.

Cranberry-Mince Meat Jumbles make a welcome autumn bridge club treat, too. Here's the recipe:

**Cranberry-Mince Meat Jumbles**  
2 cups sifted all-purpose flour  
1/2 teaspoon double-acting

baking powder  
1/2 teaspoon salt  
1/4 cup butter  
1/4 cup shortening  
1 cup sugar  
2 eggs  
1 teaspoon vanilla

Sift dry ingredients together. Cream butter, shortening and sugar thoroughly. Add eggs and beat well. Add vanilla and sifted dry ingredients. Blend well. Drop by teaspoonfuls onto greased

cookie sheet. Form a depression and heap Cranberry-Mince Meat Filling in the center of each.

Bake in a hot oven (400 degrees F.) 12 to 15 minutes.

Filling:  
1/2 cup whole or jellied cranberry sauce  
1/4 cup Hovis Mince Meat  
1/4 cup chopped nuts  
Mix together.

Cooked dried beans team well with browned chopped onions and canned tomatoes. Season well with salt and pepper and serve very hot sprinkled with parsley. To cut the parsley fine use a kitchen scissors.

## Police Get Second Request to Find Source of Shot

For the second time this week local police yesterday were asked to investigate the source of a .22 rifle shot which threatened the safety of local residents.

A resident of West O'Reilly street reported at 4:46 p. m. yesterday that a window in his house had been broken by what he thought was shot from an air rifle.

Officers Harry Martin and Frank Sammons investigated and reported that the shot was from a .22 calibre rifle, and said the spent bullet was found on a bed in the house. Detectives were notified.

LeRoy Harvey, 33, of 46 Locust avenue, was struck in the back with a .22 calibre shot Monday afternoon as he was operating a saw in the yard of his home. The pellet had broken the skin but did not penetrate the flesh.

Both pellets are at police headquarters pending the outcome of investigations.

### Technicians Detained

New York, Oct. 12 (AP)—Fourteen German technicians, brought here to study democracy at U. S. government expense, are being detained at Ellis Island in connection with the new internal security law.

## Home First Time in 70 Years

The trio got together at the Burger home in Waynesboro, Pa., for the first time, and are celebrating over a home baked custard pie. (AP Wirephoto).

## Chamber Takes Up Traffic, Matter of Members and Dues

The proposed program of the Kingston Chamber of Commerce traffic and transportation committee was approved at a meeting of the board of directors Tuesday night. This included a study of Kingston's traffic code, working for the ultimate installation of yellow caution lights in all stop lights, working for the completion of the thruway and the Kingston-Rhinecliff bridge at the earliest possible date and a study of the need for pedestrian "walk" lights at several important traffic intersections. President Robert E. Teetsel presided at the directors' meeting held in the directors' room of the Ulster County Savings Institution.

The problem of delinquent members in the Chamber was reported on by a special committee and a definite plan of procedure adopted. According to the by-laws "a member not in arrears may withdraw from membership by submitting a written resignation and returning his certificate of membership, but such resignation shall not free him from financial obligations for the period for which he has signed." Another provision of the

by-laws states that "any member may be expelled by the board of directors by a two-thirds vote for non-payment of dues." Therefore, a plan was adopted whereby the names of members who have not renewed their membership within 60 days after they became due will be reviewed by the board of directors at the next meeting. The full text of the plan will be sent to all members in the next newsletter.

It was reported that the convention committee is having a large banner made bearing the inscription "Kingston Next." The banner will be used for display at conventions in other cities as an aid in attracting the same convention to Kingston at some future date. Delegates to conventions are invited to borrow this banner.

The retail merchants committee reported that uptown businessmen asked for the assistance of the Chamber of Commerce in arranging for the 1950 Christmas lighting program. The board approved such assistance by the Chamber staff to any recognized area or sectional group of members in conducting any self-supporting community affair or promotion.

President Teetsel reported that a special meeting of all interested persons and organizations has been called for 8 o'clock, Wednesday night, Oct. 18, at the Governor Clinton Hotel to discuss possible plans for a 300th anniversary celebration of the first settlement in the area now known as the City of Kingston, in 1952. It will first be decided if such a celebration should be held and if so, suggestions will be welcome, plans developed and appropriate committees appointed.

Directors present at the meeting Tuesday night included: Emil G. Boessneck, Pratt Boke, James P. Byrne, Eugene B. Carey, Byron S. Chatham, Joseph Deegan, Frederick J. K. Eitel, Raymond W. Garrahan, Adrian Kaplan, Lawrence J. MacAvery, Clifford C. Rose, Victor H. Roth, Elmer Rylnock, George W. Schneider, Henry Singer, Edwin P. Strong, Robert E. Teetsel, ex-officio member Oscar V. Newkirk and Executive Secretary Albert Kurdt.

No new members were admitted to the U.N. during 1948, although several nations applied for membership.

## New York Passes Million

New York, Oct. 12 (AP)—New York city registration passed the million mark yesterday—the third day of the week-long enrollment period. The three-day total was 1,022,704. This was behind the 1948 presidential year and the 1946 gubernatorial year. This year's three-day figures, however, are ahead of 1949, a mayoral-senatorial year—1947, an off-year that produced no contest of wide interest—and 1945, a mayoral year. Registration continues today and tomorrow from 5 p. m. to 10:30 p. m. (E.S.T.) and on Saturday from 7 a. m. to 10:30 p. m. (E.S.T.).

## Register Tomorrow

Friday and Saturday are the final days of registration in the City of Kingston. Tomorrow, the polls will be open from 10 a. m. to 10 p. m. Saturday, the polls will be open from 7 a. m. to 10 p. m.

## Calls It Publicity Stunt

Paris, Oct. 12 (AP)—Sen. Edwin C. Johnson (D-Colo.) said today a slander suit filed against him in Rome by Movie Director Roberto Rossellini was just a publicity stunt. The senator is here with a party of touring newsmen. Rossellini, husband of film actress Ingrid Bergman, filed the suit yesterday about the time Johnson left Rome. The Italian film director said Johnson called him a scoundrel in the presence of five Italian journalists at a cocktail party in Rome Tuesday night.

## Must Get In Requests

### Christopher Columbus

Christopher Columbus was his name  
A determined young man, was the  
same  
To sail the waters, was his aim.  
Inspired by Marco Polo's travels of  
fame.

The stories of China, the fabulous lore  
Of Cathay, this marvelous land, of  
a  
A country of mystery, and riches,  
unold  
Great landscapes, broad rivers, tow-  
ering cities, and gold.

So Columbus set sail, the voyage began  
To brave the waters, this unknown  
span  
He sailed and sailed, but no shores ne  
now  
Before him lay shoreless seas with  
a roar.

His shipmates got worried, said,  
"Now we must pray"  
Columbus did this  
He kept faith, all the way.

"Sail on! Sail on!" was his command  
When early one morning, they saw  
some land  
Columbus gained a world, and now  
these lands  
Have become a haven, where true  
democracy stands  
—SOPHIE SCHMIDTKONZ

when you eat, talk or laugh. Just  
sprinkle a little **FASTEEH** on your  
plates. This pleasant powder gives a  
remarkable comfort and security by

Without Painful Backache

As we get older, stress and strain, over-  
exertion, excessive smoking or exposure to  
cold sometimes slows down kidney func-  
tion. This may lead many folks to com-  
plain of nagging backache, loss of pep and  
energy, headaches and dizziness. Getting  
up stiff or frequent passages may result  
from minor bladder irritations due to cold,  
lampshade or dietary indiscretions.

If your discomforts are due to these  
causes, don't wait, try **Don's Pills**, a mild  
diuretic. Used occasionally by millions for  
over 50 years, while these symptoms may  
often otherwise occur, it's amazing how  
many times **Don's** give happy relief—  
help the 15 miles of kidney tubes and filters  
flush out waste. Get **Don's Pills** today!

## Sarah Ryan Wed to Walter Krum

MRS. WALTER KRUM

(Punnington Photo)

On Saturday Sarah Ryan of St. Remy, and Walter Krum of 611 Abel street were united in marriage by the Rev. Joseph J. O'Rourke at the Holy Name Church.

The couple were attended by Mrs. Robert Smith, and Thomas Ryan, brother and sister of the bride.

Immediately after the ceremony Mr. and Mrs. Krum left for a wedding trip through northern New York. They will make their home in St. Remy.

Plans were also discussed for the card party scheduled for October 17, with annual proceeds donated for a scholarship to the C.A.R. school in South Carolina. This year's party will feature a tally picturing Agnes Ruth, as well as a food booth. Someone will remain at the Chapter House during the afternoon, it was announced, to receive food donations. Those interested in making party reservations should contact Mrs. Stuart G. Randall, 1867-Mc, or Mrs. Porter, Regent, who is vacationing in Vermont, will read her report at the November meeting.

Well Known Artist Wed in Woodstock

Woodstock, Oct. 12.—The well-known Woodstock artist, Charles Ruggles, was married to Marjorie Gilroy, also of Woodstock, late Monday afternoon in the Woodstock Town Hall. Justice of the Peace Joseph Fitzsimmons performed the civil ceremony. Witnesses for the couple were Philo B. Ruggles, brother of the groom, and Adelaide S. Ruggles, both of Miami, Fla.

Grisafi-Gatti Troth Planned

Mr. and Mrs. Philip A. Gatti of Saugerties announce the engagement of their daughter, Theodosia Marie, to Benjamin Steven Grisafi, Brooklyn musician. A party in honor of the engagement for 100 guests was held at Barclay Manor, Saugerties.

The couple will be married in the spring.

## D.A.R. Junior Group Meets for Dinner

The Embassy Room was the scene Monday evening of the annual dinner of the Junior Group of Wiltwyck Chapter, D.A.R., with arrangements in charge of Mrs. Ira Nelson Saxe, entertainment committee chairman. The group's monthly meeting at the chapter house followed, with Mrs. Ruth K. Friedell presiding.

During the meeting vocalist Mrs. Ralph Harper, accompanied by C. Franklin Pierce, presented an enjoyable program of music. Selections sung included "Ah Love but a Day," by Mrs. H. H. A. Beach, Romberg's "Romance," and "The Desert Song," and "Lullaby," by Cyril Scott.

Committee reports were given by the various chairmen, while members who attended the State Conference, Albany, including Mrs. John M. Schiede, Mrs. Warren A. Russell, Mrs. Maynard Mixel, and Mrs. Ruth K. Friedell, commented on the session there.

Requesting the junior group to contribute their time and energy to the "Crusade for Freedom," Mrs. William Ochs assigned various streets to those helping with the door to door canvassing Monday night.

Miss Virginia Curtis, secretary of the Junior Group and newly appointed chairman of the New York State Project, 1950-51 announced that this year the group would purchase an article of furniture for the D.A.R. room in the Ten Broeck Mansion, Albany.

Giving her report, Mrs. Roger C. Billings, chairman of the Crippled Children's Committee announced that they had been able, through their efforts, to send a young boy to camp in the Berkshires last summer. Mrs. Billings also requested volunteers for clerical assistance in the bi-monthly orthopedic clinic of the Ulster County Health Dept., and coupled her remarks with a report on C.A.R. activities.

Plans were also discussed for the card party scheduled for October 17, with annual proceeds donated for a scholarship to the C.A.R. school in South Carolina. This year's party will feature a tally picturing Agnes Ruth, as well as a food booth. Someone will remain at the Chapter House during the afternoon, it was announced, to receive food donations. Those interested in making party reservations should contact Mrs. Stuart G. Randall, 1867-Mc, or Mrs. Porter, Regent, who is vacationing in Vermont, will read her report at the November meeting.

## Good Taste Today

by Emily Post

(Author of "Etiquette," "Children Are People," etc.)

NO LONGER ENGAGED

A letter says: "If the man in question breaks his engagement to the girl for the reason that he has simply fallen out of love, is it necessary for the girl to send him his diamond ring? If she doesn't, eventually when he may need it again he will probably ask for it, and then what is the correct thing?"

The engagement ring is a pledge and not a gift, therefore, when the engagement is broken the ring is no longer hers—and should be returned at once.

Complimenting Not Rude

Dear Mrs. Post: Why is it considered rude to pay compliments to friends on their clothes, their new hairdos, etc? I can understand why it might be out of order to rush right up and say such things to an acquaintance. But why wait until our friends are gone before saying nice things about them?

Answer: I have no idea! Unless you make a great to-do about it, certainly you can say, "I love your hat, Mary!" or "What a becoming dress you have on."

Feeding Bride and Groom

Dear Mrs. Post: We're Catholic and having a nuptial Mass late morning. This will mean the bride and groom and their two attendants will last until then. May they be taken into another room at home as soon as they arrive for the reception, and be given a substantial reception meal, while the guests are simply given lighter foods and served on the buffet plan?

Answer: The bride and groom and their honor attendants are merely given something to sustain them until they have received their guests.

What to Wear to Wedding

Dear Mrs. Post: A very important occasion, my first invitation to a wedding, has brought along the problem of what a woman guest should wear. I'm not immediate family but a cousin removed. Of course, I want to be dressed properly. It will be a late afternoon wedding, and reception at the house, and while I don't believe it will be a very large wedding, I know everything will be done according to Family Post. So I, too, want to conform.

Answer: Wear exactly what you would to any other important afternoon occasion.

When does the well-dressed woman wear jewelry, gloves, or a hat? Mrs. Post is sorry she cannot answer personal mail. However, her reader E-35 gives general advice to follow. To obtain a copy, send 10 cents in coin to her care of The Kingston Daily Freeman, P.O. Box 99, Station G, New York 19, N. Y. (Released by The Bell Syndicate, Inc.)

### Grange News

Social Security for farm workers is now the law of the land, and regularly employed agricultural workers will be covered under the old age and survivors insurance program, effective January 1, 1931. This covers hired men, but not farmers themselves. To be eligible, a farm worker must have been employed at least 60 days in the three-month period prior to collection of the tax, and have earned \$50. This means that collections will begin for the 1930 quarter year of October, November and December on the first of the year, and thereafter every three months that workers are employed. "Migrant" workers will not be covered, since the new law states that a worker must have been employed by the "same" employer for the previous three months.

Farmers will collect 1 1/2 per cent from their hired hands, and match this with another 1 1/2 per cent,

making the total payment to the government \$3 on every \$100 of wages paid. Farms will be ready, and farm employers should be ready to fulfill the law's requirements by the first of the year.

Farm price subject received some attention by National Grange Economist Lloyd Halvorson recently. For those who like to toss figures around, here are some in defense of the charge that the farmer is getting rich from the high cost of food. In the first place, in June 1930 the farmer received 46 cents of the housewife's food dollar as against 53 cents in 1926. Since food is no lower, this means that the 7 cents is going to those who handle the food to the consumer. Also, the index of farm prices (what the farmer gets) is up only 14 per cent since 1926. But the industrial worker has had a 35 per cent increase in just the period from 1926 to June 1930. This is pre-Korean war. There is no indication that with another wage increase more ground on the way, food handling and industrial wages will get an-

other boost. Not so the farmer's price.

National Grange Master Albert S. Goss is scheduled to appear at the State Grange Sessions in Elmira on the opening day, Tuesday, October 31. The opportunities we have to hear Mr. Goss, and his sound economic thinking on national and international agricultural matters, are so few that as many of you as can should plan to attend to hear him.

## Even Money Favorite

Yonkers, N. Y., Oct. 12 (AP)—Proximity, queen of the trotters, rules an even-money favorite in the mile and a half \$25,000 Gotham trot at Yonkers Raceway tonight. Harness racing's leading money will face a field of seven other standard-bred sleepers including Pronto Don, who beat Proximity in the two-mile Roosevelt trot three weeks ago. Pronto Don, boasting a 14-racing winning streak since he came out of the west to surprise eastern followers of the sport, is second in favoritism at 9-5.

## Prospects Brighter

Hanover, N. H., Oct. 12 (AP)—Dartmouth's prospects for Saturday's Pennsylvania clash in Pennsylvania appeared slightly brighter today with the return of Wayne

Linman, a standout defensive quarterback last season. He has been recuperating from a summer operation. Linman probably will start in place of Charlie Curtis, who suffered a leg injury against Michigan. The latter, however, will be available for brief action against the Quakers.

## Stresses Both Styles

Cambridge, Mass., Oct. 12 (AP)—Harvard's underdog football forces are expected to run and pass from both the winged T and single wing formations against mighty Cornell here on Saturday. Coach Lloyd Jordan has been stressing both styles during this week's drills.

# Middies Are Confident Despite Losses; Play Here on Friday

## Rodiek Leads Team; Set for Burkemen

Despite three successive setbacks in the early 1950 season, the Middletown High School football team is confident in the Middletown High School football camp.

This was evidenced today by Coach Rodiek's statement that the team will have a chance to win the Middletown title on Friday.

The Middletown vs. Kingston DUSO conference engagement scheduled today night at the municipal stadium here in Kingston. Rodiek, although watching his players drop three in a row, the latest a 6 to 0 squeaker to Newburgh Free Academy last Sunday afternoon, actually sounded confident concerning the Friday night encounter.

His team's team lights had they have excellent team spirit and can make sure they do not scrapping all the time on another

what the score? Captain Doubtful Stutter. In his press talk to Middletown writers, the Middie guide mentor named Captain Roger McClure, the right halfback as the only doubtful starter against the Kingston hoards. McClure is suffering from a charity horse. If McClure is unable to start Friday night, Rodiek will likely call upon Al Cutler.

Concluding his appraisal of this year's squad Rodiek told reporters the boys are anxious to get over the crest of the hill and into the scoring column. If they do despite the fact that we'll be outwished, I think we'll make a good showing.

Meanwhile in the Kingston camp Coach Will Burke still not satisfied with his club's showing isn't leaving any stone unturned in search for a staid passing attack. He installed Charlie Liano at one of the end positions last week in a move which balanced the team's play but the aerial offensive still failed to click.

No changes are expected in the backfield setup which will have Johnny Kozlowski at quarter, Al Capino and Harold Acker at half and Carl Stobel at full. Acker, the last Kingston flash, played a brilliant game against Port last week in third down victory. Kozlowski, who also does the passing, removed all doubts as to his ability as a signal caller by setting up the only TD play of the game. It was his quarterbacking decision which gave the ball on a neat handoff to Acker who proceeded to race for the touchdown.

Both Capino and Stobel appear to be the best of the secondary men available on the Burke roster. Capino, who was moved up to the shuffling even just last week, is a pile driver and could go places before the season ends. Friday's game is scheduled for 8 p.m. under the stadium arc lights.

## JACOBY ON BRIDGE

Bill Goes Down as Larceny Lou Gloats

By OSWALD JACOBY

Written for NEA Service

"I'll bet you go around carrying at least two rabbit's feet and half a dozen horseshoes," said Bill, the bold bidder. "Why that double you made is the worst I've seen or even heard of. If I had just ruffed with the ten of clubs and pulled trumps I would have made my contract."

"I love that it," said Larceny Lou. "If you had wheels you'd be an omnibus." Actually there were a great many ifs to the hand. If Bill had not been notorious for his weak overalls Larceny Lou would not have doubled. His double really was a bad one. Then as Bill pointed out, if he had known exactly where the cards were he would have made the hand. However Bill did not point out that he should only have gone down one trick, not the two he actually went down.

East's opening bid was doubtful to say the least. However, he was one of those players who believe in bidding early. Bill's overcall was super for once. In fact he might well have doubled the one diamond bid. I know I would have.

Lou's double was terrible but it sure worked. He opened the king of hearts and shifted to the four of diamonds. East won and continued diamonds. On the third diamond lead South made the mistake that caused him to go down two. He trumped, instead of discarding his losing heart. As he pointed out, if he had ruffed with the ten he would have made the hand. However, he ruffed with the eight. Lou overruled and led the jack of spades. Declarer won with dummy's queen, played the seven to his king and attempted to ruff his remaining low spade in dummy.

East overruled for the fifth defensive trick and led a heart to his partner. That made the sixth trick. Lou played another spade and East was able to overrule dummy again to set the hand two tricks.

You will note that Bill would have saved the second penalty trick if he had taken the precaution of getting rid of his second heart early in the proceedings. Polar bears have been seen swimming 40 miles from land. Their skill in the water is almost equal to that of seals.

## Tallamy Says Lives Will Be Saved

New York, Oct. 12 (AP)—Bertram D. Tallamy, New York State Thruway Authority chairman, says the New York city-Buffalo highway will "save hundreds of lives every year" through safety construction.

Tallamy told a dinner meeting last night of the American Society of Civil Engineers, Junior Branch, that the planned 535-mile thruway will be "the safest highway engineers can build."

"Head-on collisions and crashes at intersections will be virtually impossible on the Thruway," he said, and added: "With a wide mall between opposing traffic lanes and entirely free of cross traffic, hills, sharp curves and stoplights, the lives saved, the accidents avoided and property damage averted will eventually be reflected in substantial savings in the cost of automotive insurance for every driver in the Empire State."

## Bid Is Submitted

A bid of \$15,538 for "rooting rehabilitation" at the state armory here, was submitted by H. Goodman, of Brooklyn, Bertram D. Tallamy, state superintendent of public works announced today. Low bids totaling \$1,036,637 on eight projects involving construction, repairs and alterations on state owned facilities were received in Albany yesterday. Highway bids opened included the 7.77 mile section of the state Thruway near here on which the Lane Construction Corp., of Meriden, Conn., was low bidder at \$3,659,496.65.

Dewey Repeats His

Rep. Walter A. Lynch, was asked on a recent visit to the St. Lawrence Valley how he stood on the New York power program.

Dewey quoted the paper as saying that Lynch telephoned New York city—"presumably" Flynn—to get the answer. Dewey said the paper reported that Lynch later said he favored the seaway.

Dewey Jibed  
"Can you imagine Al Smith having to call Boss Flynn in the Bronx to find out whether he was for water power?"

"What a tragedy these bums have done to the Democratic Party."

Uses 100 Kilowatts

Dewey told about 600 persons at an Oswego G.O.P. rally that the typical household in the state uses 100 kilowatt hours of electricity monthly, at a cost of about \$4.50. The same amount of electricity costs \$2.50 in Tennessee and \$1.70 in Tacoma, Wash., he asserted.

Meanwhile, Dewey said, "2,200,000 horsepower are gashing down the St. Lawrence rapids to the sea."

President Truman and Governor Dewey favor the long proposed St.

Lawrence seaway and power projects. The President says they should be undertaken together, by the federal government.

Strong opposition to the seaway, led by railroad interests and seaport city groups, has defeated the combined project seven times in Congress.

Dewey proposed two years ago that New York state undertake the power phase jointly with Ontario. The Federal Power Commission has not approved the state's application.

The governor was scheduled to fly to New York city today to attend the annual Columbus Day parade. He will campaign in the city the rest of the week, making

several broadcasts and television appearances. He will address a Dutchess county Republican rally Saturday night (8 p. m.) at Poughkeepsie.

Indictment Refused

New York, Oct. 12 (AP)—A grand jury has refused to indict Roland La Plante, accused of fatally stabbing a friend during a quarrel over a watch. As a result, the homicide charge against La Plante, unemployed building superintendent, was dismissed yesterday by Magistrate Peter Abels. La Plante, 44-year-old father of five children, claimed self-defense in the death of Frank Reilly, 30, of 436 East 142nd street, the Bronx.
